MS. VEST: We are going to go ahead 1 and begin the proceedings tonight. I want to thank 2 everybody for coming out on this unusually cold day. 3 The time is 6:06 p.m. on Monday, November 23, 2015, and we are going to go ahead and begin the 5 proceedings tonight. We are here to take public comment for the record regarding the Department's Proposed 8 Regulations Regarding the Implementation of the 9 10 Renewable Energy Portfolio Standards Cost Cap Provisions. 11 12 This is a little unique in that this is the third public hearing that we have had 13 14 regarding this proposed promulgation pursuant to Delaware law. 15 16 No decision is going to be made tonight regarding this proposed promulgation. 17 record is going to remain open for a full 15 days 18 beyond tonight's hearing. 19 20 So if you just decided to come and not offer comment but see what was being said at the 21 22 hearing on the record, that's perfectly all right. If you wish to offer comment, the record will remain 23 24 open through close of business on Tuesday,

December 8, 2015.

And it should be noted, as is the course with all of our promulgations, all comment bears the same weight, whether it was previously offered, whether it's offered tonight verbally, or whether it comes in as written comment on or before the close of business on December 8.

I also want to note for the record that, like I said, this is the third of three hearings that we have had on this matter. The first hearing happened in January of 2014. The Department went back and did some revisions, and we had a second hearing in January of 2015. And now we are here again with yet more revisions for the third hearing.

Any comment that was previously offered is still in the record. Any exhibits that were offered by the Department are still part of this record. It's been a continuing record ever since the first hearing on January 8, 2015 -- or 2014, rather. I'm sorry.

So, that being said, I'm going to turn it over to the Department. I believe they have a brief presentation, and there are some additional

exhibits that will go into this ongoing record 1 following the conclusion of that presentation. Tom? 2 MR. NOYES: Thank you. 3 hearing is to discuss a Revised Proposed Regulation 4 for the Implementation of the Renewable Energy 5 Portfolio Standards Cost Cap Provisions. 6 My name is Thomas Noyes. 7 Principal Planner for Utility Policy for the 8 Division of Energy and Climate of the Department of Natural Resources and Environmental Control, or 10 I am the responsible staff member for this 11 proposed regulation. 12 The DNREC Division of Energy and 13 Climate proposes rules to govern the Implementation 14 of Renewable Energy Portfolio Standards Cost Cap 15 Provisions, 26 Delaware Code, Section 354 (i) and 16 (j) of the Renewable Energy Portfolio Standards Act, 17 These provisions were adopted as part of 18 or REPSA. Senate Substitute 1 to Senate Bill 119, which was 19 passed by the General Assembly in 2010. 20 The proposed regulation directs how 21 the Division of Energy and Climate calculates the 22 cost of compliance with the RPS; how the Director of 23 the Division of Energy and Climate determines 24

1	whether and when to impose a freeze in
2	implementation of the RPS under REPSA; and how the
3	Director of the Division of Energy and Climate
4	determines whether and when to lift a freeze.
5	A first draft of the proposed
6	regulation was published on December 1, 2013. A
7	hearing on this matter was held January 8, 2014.
8	The Division published a revised
9	draft regulation on December 1, 2014. A public
10	hearing was held on January 7, 2015.
11	An erroneous draft regulation was
12	published in the October 1, 2015 Register of
13	Regulations. A correct draft regulation was
14	published in the November 1, 2015 Register.
15	The public comment period will be
16	open until December 8, 2015 at 4:30 p.m. All
17	comments received in response to the October 1, 2015
18	notice will be considered part of the record.
19	I would like to highlight three
20	changes to the proposed regulation:
21	1. The total annual interpretation
22	of the cost of compliance is replacing the
23	year-over-year interpretation.
24	2. QFCP that is Qualified Fuel

1	Cell Project for Bloom Energy costs (not defined
2	as renewable energy in the statute) are not being
3	included in the cost of compliance.
4	3. Specific references to
5	consultation with the Public Service Commission are
6	included.
7	The revised proposed regulation was
8	published in the Register of Regulation on
9	November 1, 2015. The proposed regulation has been
10	available for public review and comment at the
11	Department's Division of Energy and Climate office
12	in Dover and online at I have the URL for the
13	Register of Regulations, November 1.
14	(Reporter note:
15	Http://regulations.delaware.gov/register/november201
16	5/proposed/19%20DE%20Reg%20397%2011-01-15.htm.
17	The legal notice regarding the
18	availability and publication of the proposed
19	regulation and the schedule of tonight's hearing was
20	published in the News Journal on October 23, 2015
21	and the Delaware State News on October 25, 2015.
22	The Division of Energy and Climate
23	welcomes all comments from the public. Since this
24	hearing is considered a continuation of the previous

1	hearings, all comments submitted up until the
2	previous hearing are already considered part of the
3	record.
4	We are submitting the following
5	documents for the record here this evening:
6	The transcript of the hearing held
7	January 7, 2015.
8	All comments received since the last
9	hearing.
10	Register Notice 102 implementation of
11	Renewable Energy Portfolio Standards Cost Cap
12	Provisions, including notice of today's hearing
13	published in the Delaware Register of Regulations
14	dated November 1, 2015.
15	Affidavit of publication of the
16	proposed regulation and notice of today's hearing in
17	the News Journal on October 23, 2015, and Delaware
18	State News on October 25, 2015.
19	The opening statement that I am
20	delivering to you right now.
21	And the Power Point you have been
22	looking at this evening.
23	That concludes my remarks.
24	MS. VEST: Thank you, Mr. Noyes.

1	A little housekeeping: Let the
2	record reflect that the additional exhibits
3	identified by the Department just now are added to
4	the ongoing open hearing record regarding this
5	matter.
6	Does the Department have any
7	additional comments it wishes to make at this time?
8	MR. NOYES: No, we do not.
9	MS. VEST: Very good. At this point
10	I will open the floor if there is anyone who wishes
11	to offer comment for the record.
12	Again, anything that was previously
13	entered into the record is still there. This is not
14	a new hearing, but, rather, a continuation of the
15	promulgation process that started back at the first
16	hearing in January of 2014.
17	Also, if you have prepared written
18	comments, I would be willing to take them, as well.
19	Is there anyone that wishes to offer
20	formal comment for the record at this time?
21	MS. PRYDE: I have already said that
22	I think that the
23	MS. VEST: I'm sorry, ma'am. Could
24	you

MS. PRYDE: Coralie Pryde. 1 MS. VEST: Yes. 2 MS. PRYDE: C-O-R-A-L-I-E, P-R-Y-D-E. 3 I have already submitted personal comments last 4 spring saying I think that the regulations are now 5 very clearly written and should avoid any 6 misunderstanding of how the cost cap should be 7 calculated. 8 The change from year-over-year to compliance year does not bother me. I'm very happy 10 to see that Bloom Energy is no longer being counted 11 as a part of renewable energy. And I'm also very 12 pleased to see that the legitimate chronology in 13 savings will be counted in a positive way, because I 14 think that it's very important that we go to 15 renewable energy because of the cost of carbon to 16 our climate and people's health. And that's all. 17 Thank you, Ms. Pryde. MS. VEST: 18 Let the record reflect that Okay. 19 Anyone else? there is no one at this time wishing to offer 20 additional comment. 21 As I noted previously, no decision is 22 This is a continuation of what the made tonight. 23 Department has been proceeding forward with since 24

the first hearing in January of 2014. The record will remain open if anyone wishes to submit additional comment through Tuesday, December 8, 2015 at close of business. There being no additional comment for the record, I am going to conclude the proceeding at I want to thank everybody for coming this time. This hearing is adjourned. out. (Adjourned at 6:17 p.m.)

CERTIFICATE

I, Lorena J. Hartnett, a Notary Public and Registered Professional Reporter, do hereby certify that the foregoing is an accurate and complete transcription of the proceeding held at the time and place stated herein, and that the said proceeding was recorded by me and then reduced to typewriting under my direction, and constitutes a true record of the testimony given by said witnesses.

I further certify that I am not a relative, employee, or attorney of any of the parties or a relative or employee of either counsel, and that I am in no way interested directly or indirectly in this action.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my seal of office on this 25th day of November 2015.

Louva Harbett
